

Dear Sirs:
Please reject NAB's petition 04-160.

I enjoy, and pay to subscribe to, XM's programming and I should be able to receive "Instant Traffic & Weather for my fee.

Recently, during the dangerous weather we have had in the St. Louis area, this service was very beneficial to my personal safety while driving home from work.

Please do not listen to lobbyist from the NAB. Please listen to my choice as a paid XM subscriber and U.S. Taxpayer.
